

ERICA SCOPARIA

Erica scoparia is the Latin name of a shrub we call *bruyère à balai* in French (broom brush). When it is a scarf, it is a pattern based on a stitch easy to memorize and to knit and that we can make while reading for example (that I did).

MATERIAL

- 100 g (about 360 metres) of fingering yarn
- 3.5 mm needles
- tapestry needle for the finishing

ONE SIZE

The scarf is about 20 cm large and 150 cm long.

STITCH AND ABBREVIATIONS

Abbreviations

- K: Knit
- P: Purl
- Yo: Yarn over
- K2tog: knit 2 stitches together
- PSSO: slip one stitch, knit the next stitch, pass the slipped stitch on this stitch

Stitch

The stitch is on 7 stitches + 2 and 4 rows.

- **Row 1 (right side):** *P2, K2tog, Yo, K1, Yo, PSSO* repeat from * to * finish by P2.
- **Row 2 (and all even rows):** *k2, P5* repeat from * to * finish by K2.
- **Row 3 :** knit the K stitches and purl the P stitches.

REALISATION

Cast on 39 stitches. Knit one row (wrong side of the scarf). Then work with the stitch (5 repeats) **always knitting the first and the last stitch of the row** until you reach the length you want or you finish the yarn.

Finish after the row 2 of the pattern. Knit all the stitches of the cast off row.

To know if you have enough yarn to finish: measure the row, multiply this number by 3 that gives you the length of yarn you need for a row.

FINISHING

Weave the ends.

It's done!
